EFFECTIVELY USING COLLABORATION TO POSITIVELY IMPACT CHANGE

SHANNA HASTIE, LMSW
BRITTANEY DESJARDINS, LMSW

WHAT IS COLLABORATION?

- Interprofessional Collaboration (IPC)
- Why is IPC important?

EMBRACING FLEXIBILITY & CHANGE

- “Open-Minded”
- Logistics
- Social Media Platforms
- GoToMeeting
7 STEPS TO COLLABORATION

1. PURPOSE
   - Identify the problem
   - Enhance an established "solution"

2. INCLUSION OF STAKEHOLDERS
   - Membership
     - (i.e. Advisory Board)
     - Levels of membership
     - Levels of participation
   - Diversity
     - "Scan the room"
3. DEVELOP A PLAN

Core Elements of Public Health:
- Assessment
- Policy Development
- Assurance
- Execution

5. MEASURE EFFECTIVENESS

- Inclusion of stakeholders
- Number of client(s) served
- Policy Development
- Increase Knowledge
- Mobilization for change

(May only use 3 or 4 examples)

6. CELEBRATE "WINS"
7. TRANSITIONAL PHASE

- "Past the Torch"

CHALLENGES TO IPC

- Collaborative models bring together various health care providers
- What works in one health care setting may not work in another
- Journal of Health & Social Work
- Confidentiality & Disclosure
- Language

POST-CONFERENCE QUIZ

1. What is IPC?
2. Name one challenge that the Journal of Health & Social Work published concerning IPC?
3. How many steps are there in collaboration?
