EFFECTIVELY USING COLLABORATION TO POSITIVELY IMPACT CHANGE

SHANNA HASTIE, LMSW
BRITTANEY DESJARDINS, LMSW

MARCH 3, 2019

WHAT IS COLLABORATION?

• Interprofessional Collaboration (IPC)
• Why is IPC important?

EMBRACING FLEXIBILITY & CHANGE

• “Fixed” vs “Growth” Mindset
• Logistics
• Virtual Meeting(s)
• Go To Meeting
7 STEPS TO COLLABORATION

1. PURPOSE
   • Identify the problem
   • Enhance an established “solution”

2. INCLUSION OF STAKEHOLDERS
   • Membership
     - (e.g. Advisory Board)
     - Levels of membership
     - Levels of participation
   • Diversity
     - “Scan the room”
3. DEVELOP A PLAN

- Core Elements of Public Health
  - Assessment
  - Policy Development
  - Assurance
- Execution

5. MEASURE EFFECTIVENESS

- Inclusion of stakeholders
- Core Elements of PH (revisited)
- Mobilization for change

6. CELEBRATE “WINS”
7. TRANSITIONAL PHASE

- Share Lessons Learned
- "Past the Baton"

CHALLENGES TO IPC

- Collaboration + many professions = conflicts
- Agency policy considerations
- Ethics
- Confidentiality & Disclosure
- Language

ACTIVITY
QUESTIONS OR COMMENTS?

POST-CONFERENCE QUIZ (WE COULD GIVE THIS TO JESSICA)

1. What is IPC?
2. Name one challenge that could be associated with IPC?
3. The idea of “pass the baton” is used in which step of the 7-step collaboration process?
   a) Inclusion of Stakeholder
   b) Create a Plan
   c) Transitional Phase
   d) Measure Effectiveness
