

South Carolina Area Health Education Consortium

South Carolina AHEC connects students and professionals with the tools, training and resources necessary to increase access to health care, with a focus on primary care in rural and underserved communities. We provide education, recruitment and retention programs to build and support the health care workforce South Carolina needs.

Health Careers Pipeline Programs

Prepare underrepresented students for academic success and entry into health professions programs

Health Professions Student Programs

Facilitate health professions student training placements in rural and underserved communities

Graduate Medical Education

Support high-quality family medicine residency training in South Carolina

Recruitment & Retention Programs

Offer financial incentives to clinicians who want to practice in rural and underserved communities

Continuing Professional Development

Provide education for health care professionals to enhance their clinical skills and maintain licensure

Telehealth Education

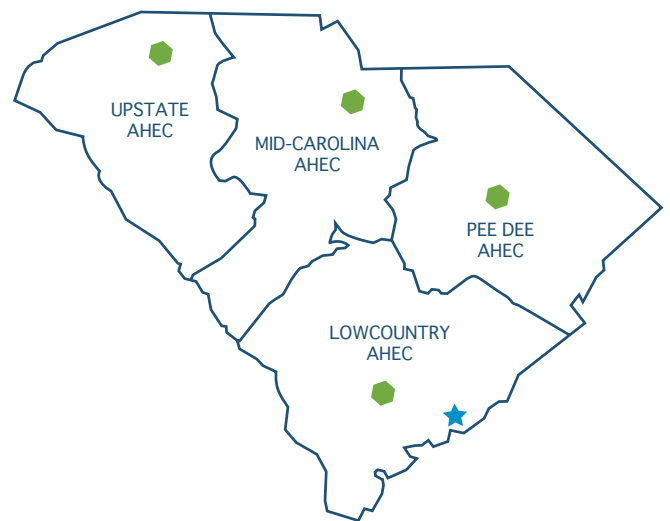

Educate students and health care professionals about emerging trends in telehealth and technology

SC Office for Healthcare Workforce

Analyze and provide information about the health care workforce in South Carolina. Learn more at www.scohw.org
